Awesome game! would love some open world dungeons as well but pretty awesome game :p One of the best MMO's I played. When you lose, you get nukes. When you win, you get nukes. Therefore, this is the best game ever.. I was waiting for this game's release and when I finally had seen the early access was available I jumped to steam and glanced the reviews and paid \$10.00 just to play an unfinished demo.

until the Dev gets his head out of his♥♥♥♥♥ I don't recommend this game.. Overall: 3/10

It gets pretty boring, and it looks like it was written by middle-schoolers. Not worth the 2 bucks.. If you were/are a fan of Master Of Orion 1 & 2, this might be something for you! The game makes a surprisingly good mix between RTS elements and the traditional TBC elements of the genre.

Perhaps not many techs, but the fact that you level them up to increase the benefit, makes research a little bit more straightforward and clearer, easier to balance.

Extremely large galaxies, unlimited amount of ships, this game can take your PC to its limits! :). juegazo esta de rucula y jamon cocido, clave la ambientacionovich. I adore this game! It's such a fun toybox to fiddle around in and make discoveries. It feels very rewarding to play and discover without feeling penalised for it. I highly recommend it, and can only imagine how awesome it is in VR!

Kaos studios has some talent behind their games, however it doesn't seem to be in the way of making the actual game.

Get frontlines for a forgettable shooter you can play once, but don't expect to be very engaged. Some of the gadgets in the game are neat, and I can see where many of the ideas for Homefront came from. Unfortunately, most of the game is boring and cookie cutter.

Frontlines also suffers from badguys take too many bullets syndrome. It's tough to kill enemies with the limited selection of weapons given to you. You might enjoy it once, but wait for a sale. Don't pay full price.. This game is superior  
Lost hours of my life here. really good, music is epic, i dont even like jazz. highly recommend. 10/10  
This is a great game. Extremely adictive and there is a lot of playtime here. A must have for VR players.. Good single player but multipler isn't a thing anymore. So if you want to play with friends might as well play something else.
