About This Content

This Hired Sword is a **new Hero-type unit that can be recruited** to further customize your roster. The **Poison Wind Globadier** is available for the **Skaven** and the **Cult of the Possessed Warbands**.

Clanrats trained to use the devious weapons of Clan Skryre, Globadiers are sold as warriors to warbands by the Warlock-Engineers. The **warpstone gas in the globes** can kill or cripple enemies, or prevent wizards from casting spells. Other alchemical gases can strengthen or even heal those exposed to them. These sneaky ratmen even fabricate bombs disguised as wyrdstone to maim the unwary.

The Poison Wind Globadier has access to a unique new set of skills:

Active skills

- **Poison Globe:** Throws a globe that breaks upon impact on the ground and creates a zone of Poisonous Gas.
- **Warp Globe:** Throws a globe that breaks upon impact on the ground and everyone in a given area suffers from a random detrimental Warp Effect.
- **Enriched Globe:** Throws a globe that breaks upon impact on the ground and everyone in a given area suffers from a random beneficial Warp Effect.
- **Strangling Globe:** Throws a globe that breaks upon impact on the ground and everyone in a given area cannot use spell

casting or vocal skills.

- **Infused Globe:** Throws a globe that breaks upon impact on the ground and everyone in a given area regains Wounds immediately, but also suffers from a random detrimental Warp Effect.
- **Vent:** The unit opens the valves of its equipment to release a poison gas. Everyone nearby suffers from a reduction of melee and range hit chances.
- **Warp fumes:** The unit sniffs from its gas tank to increase its Melee Hit chance and Dodge chance.
- **Wyrystone Lure:** Places a fake Wyrystone that explodes and deals Poison damage to approaching units.

Passive skills

- **Paralysing Discharge:** The unit's Melee Attacks inflict a debuff that reduces Initiative.
- **Invigorating Fumes:** The unit inhales fumes that increase his Climb, Leap and Jump down success chances along with Charge and Ambush hit chances.
- **Agitation:** Every time the unit receives damage, its Initiative increases.
- **Potent Globes:** All globes thrown by the unit add an extra effect which reduces the Poison Resistance of the victim.
- **Dagger Specialist:** Increases the chance of bypassing Dodge and Parry of enemies while using at least one dagger.
- **Warp Resistance:** Increases Wyrystone resistance.
- **Warp Rush:** After gathering a Wyrystone, increases Initiative.

mordheim city of the damned - the poison wind globadier. mordheim city of the damned poison wind globadier build

While I've enjoyed the game and it's worth the on sale price. I can not recommend any game that uses "swag" as a puzzle peice.. I was bought this by my partner for a total of £0.80p in the STEAM Christmas Sale. Considering the complexity of the game, I wouldn't recommend this game even for a transport enthusiast such as myself. In a way, the tachograph and driver ID is correct and realistic, however the driving, graphics and other factors weren't my cup of tea.. This game is fantastic and endlessly entertaining. The soundtrack is killer and the combos you string together are just as good as any AAA title. I spend hours dying and retrying not because the game is cruel, but because I'm trying to string together the perfect kill chains. It's just so satisfying to catch one guy and throw him into the next and watch them both explode. Also, my computer is a potato and this game runs fine, which is really nice these days.. First of all, I played this game on the Oculus Rift with Xbox Controller. I am not comparing this game to AAA racing titles like Project Cars or Arsetto Corsa or Dirty Rally. In fact, I can't think of a another game to compare this title to as there's not any other \$5 or less VR racing games that I am familiar with. I can say that after playing this game and finishing the game in 15 minutes, that it is obviously not a AAA racing title. So temper your expectations.

So should you spend \$4.99 or \$4.49 on this title? That's a tough recommendation. I don't think you should get this title if you are expecting a AAA racer experience. There's only 3 tracks currently. I raced them all in 15 minutes. And I wasn't exactly rushing through to get to the next race. I was taking my time trying to orient myself to the cockpit and the racing style. There's only 1 model of car with 4 different colors. There's only 4 racers on said track. The AI drives like your grandmother. You should easily win each race, unless you constantly crash. I didn't see a leaderboard, only the racing results at the end of each race. The only option is picking which race track you want and whether you want to drive automatic or standard.

Is this an arcade racing game or a sim? It's mostly arcade racing. I wouldn't say it's completely arcade, you do have to properly navigate turns. The visuals are mostly nice, but not great. You get a nice cockpit view during racing and it mostly looks nice inside the car. The mirrors look messed up though (it looks like a flat low res functioning mirror versus what a real life mirror would look like). Crashes are unrealistic. The car handles fine, and I got used to it quick with the Xbox controller. You do get a nice feeling of speed, which I liked. All three tracks are quite different and the island track was fun and imaginative. I want more of that.

I think I got my money's worth. But just barely. If they add more to the game and improve gameplay at this price point then it'll be a bargain steal. For now it's just barely recommendable for VR fans who want to support more racing titles (like me).

Rating 5V10. And they say videogames aren't educational.. Surprisingly charming. It's got a lot of little things in it that suggest a little more effort was put into it that it might seem from the store page.

Took me about 30 minutes to beat.. Very fun game. Very challenging, keeps you on your toes. I would recommend this if you're a fan of platformers. \$.99 you cant beat the price. I plan on playing more, so check back for an update review on this title.. Pixel Survivors is a nice little fun game.

It gets constant updates with new stuff and fixes.

It is not very complicated but thats why i like it.

Build around and see what works and what doesnt.

Totally recomend this game also for such a price.

Had lots of fun with it.. tHE akon OF AMOK VDIEO GAMES!

on the map. ridiculous and I guess whats worse is the devs dont even respond on steam SO A BIG DONT WASTE YOUR TIME WITH THIS PIECE OF JUNK!. Absolutely amazing game

- good graphics

- simple gameplay good for new people

- lots to offer

- meet alot of \u201cunique\u201d people lol

- constantly updating, improving the game

- lots of community content

- fun as hell

Only drawback has to be the fact that some of the playerbase are just horrific and make you start questioning your own life
